SUMMARY

Software Engineer with a B.Sc. in Computer Engineering and a Full-Stack diploma from ALX. Frontend-first, full-stack capable, with hands-on experience building production web applications and digital products using Next.js, React, TypeScript, Node.js, and PHP/Laravel. Focused on scalable UI, API-driven systems, performance, and reliable delivery. Experienced in cross-functional environments and ready to contribute in fast-paced agile product teams from day one.

WORK EXPERIENCE

Software Developer · **RE/MAX Wise** · Lisbon, Portugal (Erasmus+) Sep 2025 – Nov 2025

- Built and maintained 3 production real-estate platforms (Algarve, Lisbon, 5 Steps) in Next.js 15, TypeScript, Tailwind, Supabase, and Vercel — live in production environment.
- Designed shared component libraries and unified layouts across sites, cutting layout inconsistencies and speeding up release cycles.
- Implemented SEO-safe routing, metadata, canonical/noindex logic, and internal linking — directly improving organic discoverability.
- Collaborated in weekly cross-functional stand-ups with designers, marketing, and management; contributed to code reviews and deployment testing.
- Debugged build failures, resolved accessibility issues, and stabilized CI/CD pipelines in a zero-downtime production environment.
- Contributed to rapid feature delivery and iterative releases in an agile workflow.

Stack: Next.js 15, TypeScript, Tailwind CSS, Supabase, Vercel, GitHub Actions, CI/CD

Technical Support Engineer · **AFAQY** · Riyadh, Saudi Arabia Jul 2024 – Sep 2024

- Supported fleet operations for 650+ GPS-tracked vehicles; diagnosed live system issues and coordinated fixes with field teams.
- Built internal dashboards and automated reports using Next.js, Node.js, and Supabase — replacing manual Excel-based workflows.
- Delivered client training and technical documentation; developed habits of clear communication in a mixed technical/non-technical environment.

Stack: Next.js, Node.js, Supabase, Excel automation

WordPress Developer Intern · **NFS Soft** · Erzurum, Türkiye Sep 2022 – Jun 2023

- Built multilingual client websites (business portfolios, e-commerce) with custom WordPress themes, responsive templates, and cPanel hosting.
- Improved accessibility and page performance across multiple live client properties.

Stack: WordPress, PHP, HTML/CSS, cPanel

SELECTED PROJECTS

BELS Digital Application System · Full-stack admissions platform · live

- Built a digital school admissions system with multi-step student flows, authentication, file uploads, PDF generation, and admin panel.
- Designed API-driven workflows with role-based access, input validation, and clear status tracking for both students and administrators.
- Focused on reliability, form UX, and operational clarity for a real institutional process with active users.

Stack: Next.js, TypeScript, Tailwind CSS, PHP, MySQL, REST APIs, PDF generation

ErzurumŞikayet — Civic Complaint Platform · Full-stack · live in production

- Led development: designed and built user, company, and admin dashboards, multi-step complaint workflows, category filters, and real-time stats.
- Handled all layers — DB schema, backend logic, frontend UI, production deployment, and ongoing maintenance.

Stack: Laravel, PHP, MySQL, Tailwind CSS, Alpine.js, cPanel

Campus Safety App · Mobile · team project of 3

- Built with a 3 -person team: emergency alerts, real-time incident reporting, interactive campus map, and admin safety dashboards.
- Contributed to mobile-first UX, cross-platform deployment, and team coordination across design and engineering decisions.

Stack: React Native, Expo, TypeScript, Expo Router, Supabase

EventSys — Event Management Platform · Full-stack · independent

- End-to-end platform: auth, ticketing, live weather integration, event discovery, and an admin panel — deployed as separate FE and BE services.

Stack: React, Node.js, Express, MongoDB, JWT, OpenWeather API

TECHNICAL SKILLS

Frontend	React.js, Next.js 14/15, TypeScript, JavaScript (ES6+), Tailwind CSS, React Query, Redux Toolkit, HTML5, CSS3
Backend	Node.js, Express.js, PHP (Laravel), REST APIs, Supabase (Postgres), MongoDB, MySQL, Java (Spring Boot basics)
DevOps	Git, GitHub Actions, CI/CD, Vercel, cPanel, Docker (basics), Postman, Figma
Databases	PostgreSQL, MySQL, MongoDB, SQL Server (T-SQL: stored procedures, triggers)
Other	SEO implementation, performance optimization, accessibility, responsive design, debugging & testing

EDUCATION

B.Sc. Computer Engineering — Atatürk University, Erzurum, Türkiye *Graduated: Jun 2026*

Full-Stack Software Engineer Diploma — ALX (Remote) *Oct 2023 – Nov 2024*

LANGUAGES

Arabic (Native) · **English** (C1 – Advanced, certified) · **Turkish** (C1 – Advanced)

INTERNATIONAL EXPERIENCE

Youth Facilitator — Erasmus+ Youth Summer Fest, Romania *Aug – Sep 2025*

Facilitated workshops on communication and teamwork for international youth groups; coordinated with volunteers from 10+ countries.

Volunteer Translator — FIS Snowboardcross World Cup, Erzurum *Feb 2025*
Provided EN/TR translation for 15+ participating countries; supported technical operations under live event pressure.
